Subject: MLPAComments: Marine Reserve

sorry to bother you but just a quick note regarding the marine reserve. it has come to my attention that the current proposal does not include the area from breakwater to Lover's point in Monterey. I am writing to say that this excluding is terrible and that I would like to see it included. (obviously this is simply just my view, however I have the feeling that many others feel the same way) I believe this is "package Two"

Thank you for your time, Sincerely,
Justin A. Buckman
